Finding Percent of a Number (Exact Percentage)

Name:

Solve each problem.

1) 8 is what percent of 80?

2) 23 is what percent of 46?

3) 5 is what percent of 100?

4) 230 is what percent of 184?

5) 2 is what percent of 4?

6) 106 is what percent of 53?

7) 278 is what percent of 139?

8) 70 is what percent of 56?

9) 8 is what percent of 160?

10) 23 is what percent of 92?

11) 87 is what percent of 116?

12) 62 is what percent of 124?

13) 32 is what percent of 160?

14) 16 is what percent of 80?

15) 69 is what percent of 92?

16) 84 is what percent of 112?

17) 15 is what percent of 60?

18) 19 is what percent of 190?

19) 40 is what percent of 32?

20) 5 is what percent of 50?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
