Two Step Problems

Name:

Solve each problem.

1) While shopping, Sarah bought eighteen green towels and twenty-seven white towels. If she gave her mother thirty-three of them, how many towels did Sarah end up with?

2) A waiter at 'The Greasy Spoon' restaurant had twenty-three customers to wait on. During the lunch rush he added another thirty-eight customers. If forty-three of the customers didn't leave him a tip, how many customers did leave a tip?

3) Sam was trying to expand his game collection. He bought forty-one games from a friend and bought ten more at a garage sale. If thirty-four of the games didn't work, how many good games did he end up with?

4) A pet store had five siamese cats and ten house cats. During a sale they sold eight cats. How many cats do they have left?

5) Maria bought two coloring books. One had thirty-five pictures and the other had nine. After one week she had already colored thirty-six of the pictures. How many pictures does she still have to color?

6) At the school's book fair Oliver bought forty adventure books and forty-seven mystery books. If six of the books were used, how many new books did he buy?

7) Cody had thirty-six dollars. For his birthday he got twenty-three more dollars but spent forty-seven on a new game. How much money does he have now?

8) Tom had to wash forty-seven short sleeve shirts and fifteen long sleeve shirts before school. If he had only washed five of them by the time school started, how many did he not wash?

9) At the arcade, Dave won twenty-four tickets playing 'whack a mole' and twenty-one tickets playing 'skee ball'. If he spent twenty-nine of his tickets on a hat, how many tickets does Dave have left?

10) Debby picked fifteen tulips and thirty-seven roses to make flower bouquets. If she only used twenty of the flowers though, how many extra flowers did Debby pick?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
