Solve each problem.

**Advances in Automobiles**

- 1) First car body made entirely with steel. (1914) **G**
- 2) Karl Benz creates the first practical automobile. (1880) **A**
- 3) Turn signals begin appearing on cars. (1935) **L**
- 4) The first electric starter is introduced on the 'Anold' automobile. (1895) **D**
- 5) Henry Ford begins making the Model T. (1908) **F**
- 6) First power steering system is introduced. (1926) **J**
- 7) Hydraulic brakes are invented by Malcolm Loughead (co-founder of Lockheed). (1919) **H**
- 8) Karl Pabst creates the Jeep. (1940) **M**
- 9) The first motorcycle is created by Gottlieb Daimler and Wilhelm Maybach. (1886) **B**
- 10) Drum brakes are introduced by Renault. (1902) **E**

**Answers**

1. **G**
2. **A**
3. **L**
4. **D**
5. **F**
6. **J**
7. **H**
8. **M**
9. **B**
10. **E**

Solve each problem.

**Advances in Automobiles**

- 1) First car body made entirely with steel. (1914) (L or G)
- 2) Karl Benz creates the first practical automobile. (1880) (A or G)
- 3) Turn signals begin appearing on cars. (1935) (E or L)
- 4) The first electric starter is introduced on the 'Anold' automobile. (1895) (D or B)
- 5) Henry ford begins making the model T. (1908) (G or F)
- 6) First power steering system is introduced. (1926) (J or H)
- 7) Hydraulic brakes are invented by Malcolm Loughead (co-founder of lockheed). (1919) (H or M)
- 8) Karl Pabst creates the jeep. (1940) (M or L)
- 9) The first motorcycle is created by Gottlieb Daimler and Wilhelm Maybach. (1886) (B or J)
- 10) Drum brakes are introduced by Renault. (1902) (E or H)
