

Represent each equation with numbers and symbols.

Answers

1) sixteen minus sixteen equals zero

1. _____

2) ten plus nine equals nineteen

2. _____

3) eighteen plus two equals twenty

3. _____

4) twelve plus eight equals twenty

4. _____

5) six plus one equals seven

5. _____

6) nine plus one equals ten

6. _____

7) fifteen plus one equals sixteen

7. _____

8) fifteen minus thirteen equals two

8. _____

9) eighteen minus fourteen equals four

9. _____

10) twenty minus nineteen equals one

10. _____

11) nineteen minus seventeen equals two

11. _____

12) eight plus five equals thirteen

12. _____

13) eighteen minus eighteen equals zero

13. _____

14) eleven plus three equals fourteen

14. _____

15) nine plus seven equals sixteen

15. _____

16) seventeen plus one equals eighteen

16. _____

17) thirteen plus six equals nineteen

17. _____

18) sixteen plus two equals eighteen

18. _____

19) five plus four equals nine

19. _____

20) seven plus zero equals seven

20. _____

Represent each equation with numbers and symbols.

- 1) sixteen minus sixteen equals zero
- 2) ten plus nine equals nineteen
- 3) eighteen plus two equals twenty
- 4) twelve plus eight equals twenty
- 5) six plus one equals seven
- 6) nine plus one equals ten
- 7) fifteen plus one equals sixteen
- 8) fifteen minus thirteen equals two
- 9) eighteen minus fourteen equals four
- 10) twenty minus nineteen equals one
- 11) nineteen minus seventeen equals two
- 12) eight plus five equals thirteen
- 13) eighteen minus eighteen equals zero
- 14) eleven plus three equals fourteen
- 15) nine plus seven equals sixteen
- 16) seventeen plus one equals eighteen
- 17) thirteen plus six equals nineteen
- 18) sixteen plus two equals eighteen
- 19) five plus four equals nine
- 20) seven plus zero equals seven

Answers

1. $16 - 16 = 0$
2. $10 + 9 = 19$
3. $18 + 2 = 20$
4. $12 + 8 = 20$
5. $6 + 1 = 7$
6. $9 + 1 = 10$
7. $15 + 1 = 16$
8. $15 - 13 = 2$
9. $18 - 14 = 4$
10. $20 - 19 = 1$
11. $19 - 17 = 2$
12. $8 + 5 = 13$
13. $18 - 18 = 0$
14. $11 + 3 = 14$
15. $9 + 7 = 16$
16. $17 + 1 = 18$
17. $13 + 6 = 19$
18. $16 + 2 = 18$
19. $5 + 4 = 9$
20. $7 + 0 = 7$
