## Follow the instructions to find the number you end at.

Ex) Start at 590 and count up 3 times by fives.

1) Start at 784 and count up 2 times by tens.
2) Start at 917 and count up 5 times by tens.
3) Start at 144 and count up 2 times by tens.
4) Start at 838 and count up 4 times by tens.
5) Start at 169 and count up 4 times by hundreds.
6) Start at 3 and count up 4 times by hundreds.
7) Start at 715 and count up 3 times by fives.
8) Start at 570 and count up 5 times by hundreds.
9) Start at 680 and count up 3 times by fives.
10) Start at 65 and count up 5 times by hundreds.
11) Start at 715 and count up 4 times by fives.
12) Start at 77 and count up 2 times by tens.
13) Start at 579 and count up 4 times by hundreds.
14) Start at 394 and count up 3 times by tens.
15) Start at 910 and count up 5 times by fives.
16) Start at 875 and count up 3 times by tens.
17) Start at 311 and count up 2 times by hundreds.
18) Start at 69 and count up 2 times by hundreds.
19) Start at 175 and count up 5 times by fives.
20) Start at 700 and count up 4 times by tens.
