

**Solve each problem.****Answers**

- 1) For the school bake sale Lana made pastries. She baked twelve cupcakes and forty-seven cookies. After the sale she had sixteen to take back home. How many pastries did she sell?
- 2) Bianca had thirty-three music files and nineteen video files on her flash drive. If she deleted thirty-six of the files, how many files were still on her flash drive?
- 3) Carol and her mom were picking carrots from their garden. Carol picked five and her mother picked twenty-five. If only twenty-two of the carrots were good, how many bad carrots did they have?
- 4) At the arcade, Sam won two tickets playing 'whack a mole' and five tickets playing 'skee ball'. If he spent three of his tickets on a hat, how many tickets does Sam have left?
- 5) Luke had seven dollars. For his birthday he got twenty-six more dollars but spent twenty-seven on a new game. How much money does he have now?
- 6) Janet bought two coloring books. One had seven pictures and the other had forty-nine. After one week she had already colored thirty-five of the pictures. How many pictures does she still have to color?
- 7) A pet store had ten siamese cats and twenty-two house cats. During a sale they sold twenty-two cats. How many cats do they have left?
- 8) The school cafeteria ordered sixteen red apples and forty-eight green apples for student's lunches. But, if only forty-one students wanted fruit, how many extra did the cafeteria end up with?
- 9) At the school's book fair Jerry bought forty-four adventure books and thirty-three mystery books. If seven of the books were used, how many new books did he buy?
- 10) A waiter at 'The Greasy Spoon' restaurant had seventeen customers to wait on. During the lunch rush he added another thirty-five customers. If twenty-one of the customers didn't leave him a tip, how many customers did leave a tip?

1. _____
2. _____
3. _____
