## Solve each problem.

1) Given the numbers 41 and 56 , how much would you need to add to the smaller number to make it even with the larger number?
2) Given the numbers 42 and 41 , how much would you need to add to the smaller number to make it greater than the larger number?
3) Given the numbers 85 and 96 , how much would you need to subtract from the larger number to make it even with the smaller number?
4) Given the numbers 59 and 39 , how much would you need to subtract from the larger number to make it even with the smaller number?
5) Given the numbers 52 and 18 , how much would you need to subtract from the larger number to make it even with the smaller number?
6) Given the numbers 61 and 71 , how much would you need to add to the smaller number to make it even with the larger number?
7) Given the numbers 65 and 80 , how much would you need to subtract from the larger number to make it less than the smaller number?
8) Given the numbers 35 and 74 , how much would you need to subtract from the larger number to make it less than the smaller number?
9) Given the numbers 78 and 26 , how much would you need to subtract from the larger number to make it even with the smaller number?
10) Given the numbers 88 and 25 , how much would you need to add to the smaller number to make it even with the larger number?
11) Given the numbers 53 and 95 , how much would you need to add to the smaller number to make it even with the larger number?
12) Given the numbers 80 and 21 , how much would you need to add to the smaller number to make it greater than the larger number?
